What is *Oxford Word Skills*?

Oxford Word Skills is a series of three books for students to learn and practise new vocabulary.

There are over 2,000 new words or phrases in each level, and all of the material can be used in the classroom or for self-study.

How are the books organized?

Each level contains 100 units of vocabulary presentation and practice, with a unit being 1–2 pages, depending on the size of the topic. New vocabulary is presented in manageable chunks, then immediately followed up with practice exercises, usually on the same page.

The units are grouped within modules containing 3–12 units each. A majority of the modules are topic-based, e.g. Feelings and emotions, Geography, Air travel, but some modules have a language focus, e.g. Prepositional phrases, Using verbs with reflexive pronouns, Phrasal verbs.

At the front of the Intermediate level you will find:

- a list of all the 'spotlight' boxes

At the back of the Intermediate level you will find:

- a list of vocabulary-building tables
- a list of common irregular verbs
- an Answer key for all the exercises
- a Word list of all the vocabulary taught with a reference to the units where each item appears and the CEFR level for words/phrases in the Oxford 3000™/5000™ or Oxford Phrase List™.

Oxford Word Skills comes with the *Oxford Advanced Learner's Dictionary* app, which allows learners to find the meaning of new words in English and provides a pronunciation model for the words. You will find pronunciation exercises throughout the book which refer you to the  to check the correct pronunciation.

What vocabulary is included?

At Intermediate level, the vocabulary includes:

- a wide range of common topic areas, e.g. People, The world around us, Study and work
- words and phrases needed in social interaction, e.g. Making arrangements, Warnings, Opinions
- areas of lexical grammar, e.g. Verb + infinitive or *-ing* form, Prepositions in time phrases, Word building: prefixes

Throughout the three levels the main focus is on high-frequency vocabulary in everyday spoken English, although the higher levels add more language from different styles of English as well as more figurative usage of language.

The selection of vocabulary at each level is based on frequency and usefulness, with the foundation being the Oxford 3000. This is a list of 3,000 words identified by the Oxford University Press ELT Dictionaries team as the most important words for learners of English. These items have been divided into four levels in accordance with the CEFR (A1, A2, B1 and B2).

- The Elementary level includes many items from A1, but with the majority of items at A2 level.
- The Intermediate level has a focus on B1 items from the Oxford 3000, as well as recycling some items from the A2 level, and it also includes some B2 items.
- The Upper-Intermediate – Advanced level concentrates on B2 items from the Oxford 3000, but also includes C1 items from the Oxford 5000 word list (which includes both additional B2 items and C1 words). It is not within the scope of this series to teach C2 items, as these correspond more closely to lexical needs at proficiency level.

The Oxford 3000/5000 word lists are supplemented by the Oxford Phrase List, which contains just under 1,000 CEFR-levelled phrases considered important for students at each level. The Intermediate word list also draws on topic lists from OUP's learner's dictionaries, which identify key vocabulary items across a range of 60 topics. By using the Oxford 3000 alongside the topic lists, we have been able to focus on high-frequency vocabulary, but also to include vocabulary items that may not have a high frequency overall, but will have great value in particular contexts, e.g. *turnover* and *inflation* in finance, and *selfie* and *profile* in social media. By using the Oxford Phrase List, we have also been able to ensure the best coverage of both words and phrases for each level.

We have taken great care to ensure that learners will be able to understand the meaning of all the new words and phrases by supplying a clear illustration, a simple definition, or an example of each word or phrase in use. Learners should be aware that many English words have more than one meaning. They should refer to the *Oxford Advanced Learner's Dictionary*  for information on other meanings.

To the teacher

How can I use the material in the classroom?

New vocabulary is presented through:

- **visuals**

You use a **hammer**¹ to **bang** a **nail**² into the wall to **hang** a picture on.

You use a **drill**³ to make a **hole**⁴. A hammer and drill are **tools**.

You use a **needle**⁵, **pins**⁶, **scissors**⁷ and **cotton**⁸ when you're **sewing**.

- **tables**

Crime	Meaning	Verb	Criminal (= a person who commits a crime)
theft	taking sth which belongs to sb else without permission	<i>He steals cars then sells them.</i>	thief (pl thieves)
robbery	stealing from a person or place, often using violence	<i>Two men were planning to rob the bank.</i>	robber

- **different types of text**

B Points of view

Yes, no or sometimes?

- I have the same **point of view** on things as my parents.
- I enjoy **expressing my opinion** online.
- I'm **against** freedom of speech in some cases.
- I'm **prepared to** admit when I **have no idea about** a particular **topic**.
- There are some subjects I have **fixed** ideas about, and I'm not **willing to** discuss.
- I sometimes **change my mind** when I'm

GLOSSARY

express	tell or show what you are thinking by words, looks or action: express your opinions/feelings
be against sth	If you are against sth , you do not agree with it. OPP be in favour (of sth)
in some cases	in some situations
prepared to do sth	happy to do sth SYN willing to do sth
have no idea (about sth) inf	used to emphasize that you do not know sth
topic	a subject that you talk, write or learn about

Visuals provide a clear guide to meaning; the tables and texts show words used in natural sentences, with the meaning explained in a glossary. As the input in most sections occupies a page and does not usually exceed 15 items, it is very straightforward to use in the classroom. Here is a procedure you could follow:

- Students study the visuals or written text in the presentation for at least ten minutes. This allows time for them to reinforce the connection between the visual input and the meanings, or to read through the glossary carefully to check the meaning of the new items in the presentation sentences, dialogue or extended text. Tell students to look at the extra words included in the **glossary** (opposites, synonyms, derivatives, collocations and further examples) as this will help them to expand their vocabulary with minimal effort in many cases. It is also important to look at the **spotlight** boxes. This is an additional feature which picks out an item or items of particular value.

For example:

SPOTLIGHT degree courses

Universities give **degrees** to students who complete special courses. In the UK these are normally courses of at least three years, and up to five years for subjects such as medicine. You **do a degree** or **study for a degree**.

▪ *I'm **doing a degree in law**.* ▪ *My sister is **studying for a degree in English**.*

If you go on to do a higher degree, e.g. a Masters or a PhD, that is called a **postgraduate degree**. A student is then a **postgraduate** (ALSO *inf postgrad*).

- While students are working through the presentation, you can answer any questions they may have about the new vocabulary. This is also an opportunity to provide a pronunciation model for your students to repeat; otherwise the presentation stage is going to be a long silent phase. You might want to read a text aloud, or get students to read sections of it.
- Students can move on to the first exercise, which they can check for themselves using the Answer key, or you can go over the answers with the whole class. The latter is probably a better approach, as you can also discuss why they might have arrived at a wrong answer and focus on or practise pronunciation. It is sensible to work through the exercises chronologically, as they generally progress from receptive practice to controlled productive practice, and then quite often to freer productive practice in the **ABOUT YOU** / **ABOUT YOUR COUNTRY** activities.
- When you are satisfied with their answers to the first exercise, you can ask students to go on to further exercises while you monitor them as they work individually or in pairs, assisting where necessary. You will find that many of the exercises, once done – e.g. sentence completion, and particularly dialogue completion – lend themselves to controlled speaking practice. Students can practise dialogues in pairs or take it in turns to read out complete sentences to each other.
-  **TEST YOURSELF** When they have completed the written exercises, students can test themselves on the new vocabulary. The material has been designed so that students can cover the new words beneath a picture (using a piece of paper, etc.) while they look at the visuals and test themselves. They can do the same with some of the tables and glossaries: cover the new vocabulary and look at the meaning, or vice versa. This is a simple, quick and easy way for learners to test themselves over and over again, so there is no pressure on you to keep searching for different exercises. It is also useful to demonstrate this so that students can revise vocabulary in their own time using this 'cover and check' approach.
- The headings **ABOUT YOU** or **ABOUT YOUR COUNTRY** signal personalized exercises which give learners an opportunity to use the new vocabulary in a freer way, and within the context of their own lives. Students can write answers to these exercises, but they also make ideal pairwork activities in which learners can practise their spoken English while using the new vocabulary. If you use these as speaking activities, students could then write their answers (or their partner's answers) as follow-up. In the Answer key, possible answers for these activities are provided by both native speakers and proficient non-native speakers from different parts of the world. This may be of particular value to a self-study learner, as a way of comparing answers.

How can students use the material on their own?

The material has been designed so that it can be used effectively both in the classroom or by learners working alone. If you want your learners to use the material for self-study, you can recommend that they use the book alongside the , as it gives them a pronunciation model for items of vocabulary. For self-study learners in particular, it is also a good idea to start with the first module on the subject of learning. They can check their answers to exercises using the Answer key, and test themselves using the 'cover and check' procedure explained above. They can also select the topics that interest them, or the topics where they most need to expand their vocabulary.

When I started learning English, I was very keen and motivated, but I found it difficult to pronounce English words, and sometimes people couldn't understand me. After a while my pronunciation got better, and I was able to express basic ideas quite effectively. It was obvious that I was improving, and that was very encouraging.
But at intermediate level, my progress slowed down. There were so many new words and phrases I didn't know. I think I was also more aware of my mistakes, which was good – but also frustrating.

B Future goals

What are your learning goals?

Felipe Ramirez

VOCABULARY I can understand most native speakers of English, but my vocabulary needs to expand so that I can understand a wide range of subjects, and express more complex ideas.

SPEAKING I'd like to be more fluent when I'm speaking, and be able to talk about things in more detail. And I need to get better at using language that is suitable for the situation.

READING I can understand general things, but to achieve my aims I need to be able to read texts that are to do with my work, and some of these contain quite difficult language.

Some important punctuation rules

A **full stop** is used at the end of a sentence that is not a question or an exclamation, and is sometimes used in **abbreviations**. Each new sentence must begin with a **capital letter**.

A **comma** in writing is like a **pause** in speech. It is used:

- to **separate** parts of a sentence, e.g. *After we left, someone tried to phone us.*
- often between adjectives, e.g. *He bought a powerful, expensive car.*
- to separate words in a **list**, though it is usually **omitted** before *and*, e.g. *I went to France, Germany, Italy and Spain.*
- when words or phrases **interrupt** the normal order of a sentence, e.g. *I decided, however, that I needed something to eat first.*

A **colon** is often used to introduce **further details** such as an explanation or a list, e.g. *The shop is full of antiques: tables, chairs, wardrobes, mirrors and so on.*

A **semicolon** is sometimes used in formal writing **instead of** a full stop when two sentences are very closely **connected**. It is also used to separate two main clauses, e.g. *I went round this morning; nobody was there.* These are often clauses not **joined** by a link word **such as** *and* or *but*.

Apostrophes show where we have **left letters out** of a word, e.g. *I'm* = I am; *don't* = do not; *I'd* = I would OR I had. They are also used to show that something belongs to somebody or something, e.g. *Mark's car* = the car belonging to Mark; *the children's room*.

One day, I was **behaving** badly in class and the teacher got very angry. I knew I **ought to** apologize but I didn't, so I was **punished**: he hit me with a stick. 8 possible answers, from Poland:

I go to the Polish coast quite frequently – once a year or once every two years during summer. My family have a favourite beach near Kołobrzeg, which is over 550 km from Warsaw. We usually go there by car. The Baltic Sea is very cold but the beaches are lovely – wide, bright and clean. You can lie on the golden sand and watch the waves (which are not usually very high) or fishing boats or ships passing by on the horizon. I also enjoy walks along the coast with my feet in the water.

Behind the beach there is a forest. The Baltic Sea Cycling Route runs through the forest – it's so much fun to cycle there. When the weather is really hot, some people prefer having a walk in the cooler forest to lying on the beach.

7 possible answers, from the Czech Republic:

There are plenty of charities in the Czech Republic. The most famous cancer charities are Dobrý anděl (Good Angel) and Liga proti rakovině (League against Cancer). They raise money on special occasions. For example, on Flower Day every May, volunteers sell bright yellow flowers to support the League. DMS, i.e. donation text messages, have probably become the most popular way of contributing. Of course, you can always send donations to the charities' accounts.

These big charities compete for donations, but they work on a different basis. The League always have a 'topic' of the year – this year it was lung cancer – while Dobrý anděl tell people about concrete cases of people/families who need help because of the illness.

These charities have 'transparent' accounts, which means we can see where the money from our donations goes. And this may be a good solution to the problem described in the text.
